Prof. ALIKHANIAN S. I. DIRECTOR

Prof. J. Lederberg  
Dept. of Genetics  
Stanford University  
School of Medicine  
Stanford, California 94305,  
USA

October 21, 1974

Dear Prof. Lederberg,

Probably you know about the appeal of the group of  
American scientists (Cohen, Baltimore et al.) of the USA  
National Academy of Sciences published in "Nature"  
(Vol. 250, July 19, 1974).

In particular, these scientists declared for the  
organization of the conference to discuss problems in  
question.

I have heard that this conference is appointed  
on February 1975, but I should like to know where it would  
take place, what is the program, what is the Organizing  
committee and who is the host.

I would be very much obliged to you if you could  
give me some information about it and help me to get an  
official invitation to the conference.

Thank you in advance. I am sorry for having troubled  
you.

Sincerely yours,

Prof. S. Alikhanian

ALIKHANIAN, S.
